In case of placing an instrument through the syndicated auction method, the syndicated instrument will replace the title to be placed in the primary auctions. A new 30 year reference for the Inflation linked bonds will be evaluated.

## Liability Management

The SHCP will be open to use the tools at its disposal to fulfill its complementary objectives to the auction calendar:

1	Preserve the right functioning of the market
2	Smooth portfolio maturity profile
3	Improve the efficiency of debt portfolio
4	Strengthen liquidity of current issuances

Special operations will be sought during 2Q 2024, as long as market conditions are favorable.

# Syndicated Auctions – BONDES G, BONO S and Auction Modifications

The SHCP will be attentive to market conditions and if any of these operations are carried out, the SHCP will announce the respective call through Banco de México.

The SHCP reiterates its commitment to preserve the stability of the economy and the proper functioning of the local debt market. The SHCP will be attentive to the evolution of the financial markets to take the necessary measures to ensure their proper functioning.

In event of any modification to the Government Securities Auction Calendar is necessary, the SHCP will inform the market in a timely manner.

SHCP reiterates
its commitment
to preserve the
stability of the
economy and
local debt market

### Debt Issuance by Banco de México

#### **Bondes F:**

During the second quarter of 2024, the total weekly amount of Bondes F to be auctioned by Banco de México will be MXN 3.0 billion. The maturities and amounts to be auctioned are as follows:

- 1-year: 1.0 billion pesos on a weekly basis.
- 3-year: 1.0 billion pesos on a weekly basis.
- 5-year: 1.0 billion pesos on a weekly basis.

#### **Extraordinary Operations:**

In addition, Banco de México anticipates a liquidity expansion in the financial system during the second quarter of 2024. Therefore, Banco de México will conduct different operations in order to sterilize this liquidity and maintain a short-term creditor position against the banking system.

#### **Cetes and Bondes F:**

Banco de México may carry out new placements of Cetes and/or Bondes F through extraordinary auctions during the coming quarter. The total amount that can be placed through the aforementioned combined extraordinary operations could be of up to MXN 75 billion. The dates of these auctions and the maturity of the instruments to be offered will be specified in each offering announcement.

### Debt Issuance by Banco de México

#### **Debt Exchange Auctions:**

Similarly, Banco de México, acting on its own behalf, may execute debt exchange auctions of Government securities during the second quarter of 2024. The purpose of these operations would be to smooth out the monetary effect of maturing Government securities. The details of these auctions would be specified in each offering announcement.

If these debt exchange auctions take place, the allocated amount could be considered within the total amount to be offered through the aforementioned extraordinary auctions.

These actions are neutral from the standpoint of Banco de México's monetary policy stance and do not have implications on the Overnight Interbank Interest Rate.

In accordance with the 2024 Annual Financing Program approved by the Governing Board of the Institute for the Protection of Bank Savings (IPAB), the Institute informs that for the second quarter of 2024, the weekly objective amount of Savings Protection Bonds (BPAS) remains unchanged with respect to the first quarter of 2024, as follows:

- 1,700 million pesos (mp) for the 3 years BPAG28 (IM);
- 1,700 mp for the 5 years BPAG91 (IQ); and
- 1,500 mp for the 7 years BPA182 (IS).

Thus, the weekly target amount to be auctioned by the IPAB will be 4,900 mp. This program is consistent with the objective of keeping IPAB's liabilities from growing in real terms.

### **BPAS Target Amount by Auction Issue Code**

## Petróleos Mexicanos

- Petróleos Mexicano's (PEMEX) financing program for 2024 is consistent with what was authorized by the Mexican Congress, allowing an internal net indebtedness of up to \$138,119.1 million pesos.
- Due to current global market conditions, global risk factors and the company's needs, Pemex has implemented an efficient financial strategy, aligned with its Business Plan. In 2024, PEMEX's internal financing program will remain flexible, according to prevailing market conditions.
- For the second quarter of the year, PEMEX will evaluate carrying out refinancing transactions to improve the company's liquidity. PEMEX will be sensitive to any market volatility, always looking for the best conditions.
- In addition to consider the issuance of bonds in debt capital markets, PEMEX could complement its financing program with credit facilities, either in a bilateral or syndicated format, revolving credit facilities, as well as structured alternatives.
- The company could also refinance these type of financing sources in order to strengthen its financial position.

## Petróleos Mexicanos

- Should PEMEX carry out any issuances in the local market, they may be instrumented through the communicating vessels mechanism in different formats such as variable rate, nominal fixed rate and real fixed rate. The amounts and corresponding dates will be available through the public offering announcements.
- Finally, local-currency denominated bonds could be settled through international clearing houses to increase PEMEX's investor base and strengthen the demand for PEMEX's securities.
